

# Comment and Escapes Sequence and Print Statement

## Comment

Comments are executable.

## Types of Comment

Single Line Comment:

For single line

Multi Line Comment

For multiple lines

We use `"""` triple double code `"""`

Escapes Sequence

`\n`

separator sep by default separator is space

## Source Code:

```
#Name Munawar          date 03-12-2022
print("My name is Munawar \n I am a good boy")#\n is a escape sequence
#please this line is comment
#syntax highlighting for example comment is green colour print is white () is
yellow

"""This
is
a
multiple
line
comment
"""

print("I am \" Good Boy\" ")
```

```
print("munawar",148 ,"uobs",sep="#",end="148\n")  
print("ali")
```

Thank You
