

Exercise 7 Solution Clutter in python

Question

Write a program to clear the clutter inside a folder on your computer. You should use OS module to rename all the PNG images from 1.Png all the way till n. PNG where n is the number of PNG files in that folder. Do the same for other file formats.

Source Code

```
import os
files=os.listdir("ClutterFolder")
i=1
for file in files:
    if file.endswith(".PNG"):
        print(file)
        os.rename(f"ClutterFolder/{file}",f"ClutterFolder/{i}.PNG")
        i=i+1
```

Thank You
