

Exercise 5 Snake Water Gun in python

Question

Snake water and Gun is a variation of the children's game "rock paper scissor" where players use hand gesture to represent a snake, water or a gun. The gun beats the water. Write a Python program to create a snake water gun game in python using if else statements. Do not create any fancy GUI. Use proper functions to checks for win.

Source Code

```
#           S   W   G
#  computer  0   1   2

#  player S   0   D   W   L
#           W   1   L   D   W
#           G   2   w   L   D
```
